Our recent Asia Pacific renewables experience.

Thailand
- a leading Thai electric power generation company on the proposed acquisition of a 30% stakeholding in a green energy company which owns majority equity stakes in three Indonesian companies which have developed and operated three run-of-the-river hydropower projects
- the fund manager on the establishment of an infrastructure fund for the transfer of solar power capacity to the 13MW US$117M owned by subsidiaries of a Thai-listed company engaged in solar and alternative energy
- Khaor Kiong Wind Power, a subsidiary of Ratchaburi, on the project contracts and project financing for the 60MW Khaor Kiong wind power project in Thailand
- The Samir Commercial Bank Public Company Limited as the lead arranger and a lender on a proposed financing to Wind Energy Development Company Limited ("WED") to construct, develop and operate a 60MW wind project, comprising three wind power projects (CMW, BMW and 5MW), in Nakorn Ratashaewa Province as well as a mezzanine financing to the sponsor Guniel Engineering Public Company Limited to finance its equity contribution into WED for the project
- Diamond Generating Asia Ltd on the THB 1.2bn sale of shares in Natural Energy Development Company Limited and N E D Wind Co Ltd
- First Korat Wind Company Limited and RR Two Company Limited, project companies in which Rachathani Electricity Generating Holding Public Company Limited and Wind Energy Holding Public Company Limited hold substantial interests, on the THB 6.43bn limited liability financing of a 2 x 103.5MW wind power project in Thailand and on the investment in the project companies as well as on the project contracts, including the turbine supply agreement and permits and licenses and on its mezzanine financing for an equity contribution in the project. These were the first two wind power projects in Thailand and the biggest in South East Asia
- Global Power Synergy Public Company Limited on its acquisition of a 40% interest in a 816MW solar farm owned by Thai Solar Renewables Co Ltd
- Solar Power Co Ltd on its THB 1.95bn sale of a 40% stake in three of its solar power projects to Rachathani, Electricity Generating Holding Public Co Ltd
- SPPC Public Company Limited on its potential public offering and the equity joint venture in relation to the development of its solar farms
- Kaokhoi Bank Public Company Limited on the project financing of a 20MW solar park project in Chonburi province, Thailand.
- an international energy developer on two 20MW solar projects
- Diamond Generating Asia Ltd as joint venture partner on the development of one of the largest solar projects in Asia
- Double A (1991) Public Company Limited on its THB 18bn project for a pulp mill project with a design capacity of 472,500 tonnes per annum and an 890MW biomass power plant project in Prachinburi Province.
- Deutsche Bank AG, Singapore Branch, in relation to its US$150m equity financing in Biomass Electric Co Ltd. for the purpose of financing the development and construction of a 65MW biomass power plant in Prachinburi province.

Malaysia
- the sponsors on the US$65m financing of the Bukoh Hydroelectric Project
- on the anchor offshore agreement for the 2.40MW Bukah Dam in Sarawak, Malaysia, representing the Malaysian/PRC industrial power customer.

Philippines
- Macquarie Infrastructure Holdings Philippines Pty Ltd on the US$220m joint venture with Ayala Corporation and UPC Philippines Wind Holdco I B.V. to invest in wind farms in the Philippines
- Diamond Generating Asia Ltd on its investment into the 83MW Capisanpapin wind farm in focus Norte.
- Diamond Generating Asia Ltd on a joint venture with Michigan Power (wholly owned subsidiary of Ayala Corporation) to explore solar power opportunities in the Philippines
- a major energy company on its bid to acquire a 50% stake in the 720MW hydroproject in Luzon, the Philippines.

Pakistan
- China Development Bank and HBL in relation to the project financing of the 1132MW Kohala Hybrid power project in Pakistan to be developed by Kohala Hydro Co (Pvt) Ltd.
- China Development Bank as lenders on the US$1.8bn project financing of the 643MW Delingha photovoltaic plant project in Delingha, Qinghai, China.
- Standard Chartered Bank on the project financing of a windfarm in Sindh province.
- Mitsui & Co. Ltd and Masakiro Berhoff as sponsors on the development of a wind power project in Sindh, Pakistan
- the lenders on the project financing for the development of the 870MW Suej Kaliyan hydropower project in Pakistan
- Asian Development Bank on the development and financing of a dual fast biomass and coal co-generation power project in Pakistan

India
- a bidder on the potential acquisition of a portfolio of operational and developing wind and solar projects
- the ECAs and commercial bank lenders on a potential 750MW solar project financing in India
- the sponsors on the US$1.5bn Atalma Hydro Power Project in Karnataka, India
- Greenshore Mauritius on the acquisition of Sunfleit's operational solar and wind energy assets in India

Australia
- ASI on the establishment of its Powering Australian Renewables Fund and on the sale of the Bulican H4 and Nyngan solar power stations, the Silverton wind development project and the Coopers Gap wind development project into the PWRF
- on the work associated with the A$2 billion Snowy Hydro 2.0 Expansion Scheme. The unprecedented expansion will increase current capacity by as much as 50% and significantly increase the amount of renewable energy storage capacity in Australia as well as significantly increase the amount of renewable energy storage capacity in Australia as well as for hydro generation
- on its negotiation and execution of a corporate PPA with Pacific Hydro's Clement Gap Wind Farm
- First Solar on the proposed development of five solar development assets across New South Wales and Queensland

Japan
- a Japanese bidding consortium on their potential bid to acquire Equinor's Asia Pacific renewables portfolio of over 170 assets including solar, wind and hydroelectric power operations in Taiwan, Japan, Australia, India, Indonesia, the Philippines and Thailand
- a potential Solar on its 80% sale of its Japan renewables portfolio
- ING Bank in relation to the K32.75bn financing of Nippon Solar Services' construction of a utility-scale solar photovoltaic power plant in the Oita Prefecture in Kyushu
- ING Bank on the financing of NPG Vod-Gold Kaisana solar photovoltaic power plant in Naji, Okayama Prefecture.
- Nippentex in relation to the financing for the construction, operation and maintenance of the Nanzenji c.3.3MW solar PV plant in Japan (satisfactorily finalized)
- Sonnedix in connection with the K13.5 billion project financing of a greenfield 416MW solar photovoltaic plant located near Sanyi, Tchungping, Taiwan.
- the sponsors of a corporate reorganisation involving 12 solar projects (comprising 93MW in aggregate) in Japan
- an international sponsor on its potential project finance facilities for the development and construction of a solar PV project in Japan
- an independent international solar power producer on the development and project financing of a 330MW solar PV plant
- a Japanese megabank on risk allocation mitigation strategies for wind, solar and biomass project financings in Japan
- a European solar PV operator on the development of its first solar portfolio in Japan
- the Japanese lender on the financing and hybrid securitisation of a portfolio of PV assets
- Japanese lenders on the limited recourse financing of a solar project totaling 10MW in the western part of Japan

Italy
- a bidder on the potential acquisition of a portfolio of operational and developing wind and solar projects
- the ECAs and commercial bank lenders on a potential 750MW solar project financing in India
- the sponsors on the US$1.5bn Atalma Hydro Power Project in Karnataka, India
- Greenshore Mauritius on the acquisition of Sunfleit's operational solar and wind energy assets in India

Korea
- the sponsors on an acquisition of 80% of the total shares of a wind power generation company which has a wind power project in Yeongam, Jeollanam-do, Korea
- a leading offshore wind developer on its market entry into Korea

Laos
- Suki Kinari hydropower project in Pakistan
- the sponsors on the proposed project financing for the development, in joint venture with PT Optima Nusantara Energi (PT ONE), of the 55MW Way Ratai geothermal power project
- KKR's sale of its Japan renewables portfolio
- on the financing for the construction, operation and maintenance of the Nanzenji c.3.3MW solar PV plant in Japan (satisfactorily finalized)
- Sonnedix in connection with the K13.5 billion project financing of a greenfield 416MW solar photovoltaic plant located near Sanyi, Tchungping, Taiwan.
- the sponsors of a corporate reorganisation involving 12 solar projects (comprising 93MW in aggregate) in Japan
- an international financial sponsor on its proposed acquisition of a significant entity interest in projects representing over 1000MW of proposed offshore windfarm capacity in Taiwan
- two ECAs on the bankability analysis of the offshore wind PPA and regulatory regime in Taiwan
- a lender on the potential financing of a significant (confidential) solar project in Taiwan

Vietnam
- BIM Group on its joint venture with the energy arm of Philippines' Ayala Corporation to develop around 330MW of solar power projects in Vietnam. Phase 1 is ongoing and involves the construction of a 30MW solar power project. We are advising on all aspects of this transaction including joint venture arrangements, O&M contracts and project financing
- ORIX and UCIs on the US$55m joint investment in Bitexco Power, which owns and operates a portfolio of hydropower projects across Vietnam, including conducting full due diligence on all the projects.

Indonesia
- an international energy company on its bid to acquire an interest in a developer of power projects in Indonesia, with an active portfolio of operating and under-development projects (thermal and renewables)
- the arrangers on the US$650m secured loan facility for the purpose of, among others, the financing for the Star Energy Group consortium's equity contribution towards acquisition of a portfolio of Indonesian geothermal assets currently owned by Centino and the refinancing of the senior secured notes issued by Star Energy Wayang Windu
- the lender on the structuring and hybrid – project financing of a greenfield hydro renewables project in Indonesia
- Ratchathani Electricity Generating Holding in exploring the possibility of investing into three Indonesian run-of-the-river hydropower projects in North Sulawesi. Two projects are in operation and the other two projects are still under construction
- an international investor on its potential joint venture to develop an onshore windfarm in South Sulawesi, Indonesia
- the commercial lenders on the US$260m bank and bond debt financing of a geothermal power project in Indonesia for Dayabumi Salak Pratama, Ltd.
- Envil Green Power on the development, in joint venture with PT Optima Nusantara Energi (PT ONE), of the 55MW Way Ratai geothermal power project
- a number of renewable energy companies on the regulatory regimes and structuring considerations for the development of large scale and small scale solar PV projects in Indonesia

PRC
- China Light & Power on the acquisition of two windfarm projects in Liaoning province of the PRC
- Arcadia Bank on the acquisition of the Hulton Hydro 49.5MW wind project in PRC and, subsequently, the project company on the project financing of the expansion of the existing windfarm.
- China Light & Power on the greenfield development of a hydropower project in Yunnan province.

Taiwan
- the common lenders on the project financing for the 128MW Formosa 1 offshore wind project
- OMV Energy (now Ørsted) on the acquisition of a 35% interest in the Taiwanese offshore wind project Formosa 1.
- the sponsors on the proposed multi-sourced non-recourse financing for the Yunlin and Guanyin offshore windfarms in Taiwan comprising over 1,000MW of new offshore wind capacity
- an international financial sponsor on its proposed acquisition of a significant entity interest in projects representing over 1000MW of proposed offshore windfarm capacity in Taiwan
- two ECAs on the bankability analysis of the offshore wind PPA and regulatory regime in Taiwan
- a lender on the potential financing of a significant (confidential) solar project in Taiwan.
