Our recent European renewable experience.

United Kingdom
- the sponsors on the financing and development of the 660MW Dudgeon offshore wind project
- the sponsors on the financing of the 139.4MW Thanet offshore wind farm, and the subsequent sale of 41% stake of the wind farm to a Japanese consortium
- Dudgeon Offshore Wind Ltd (as borrower) on the €3.1bn refinancing of the 42MW Dudgeon offshore windfarm located off the coast of North Norfolk (UK)
- the consortium of MIE and Macquarie Capital on their acquisition and financing of a 50% stake in the Race Bank Offshore Wind Project (as borrower) on the construction and development of the 179.6MW Race Bank offshore windfarm
- the sponsors on the construction and financing of the 66MW Beatrice offshore windfarm
- the lenders on the multi-energy financing (‘E2E’, ‘E2F’ and commercial lenders of the Galloper offshore windfarm
- the lenders on the project financing of the CIR based Nova Nua Gaoidhe project
- the lenders on the construction of the Lincs offshore windfarm
- financial advisors on the acquisition of a strategic stake in the Sheringham Shoal offshore windfarm, UK
- Fortis Bank on the €2.5bn refinancing of the Lincs offshore windfarm
- Asia Power Holdings B.V and the UK Green Investment Bank Plc on the €500m acquisition of a 50% interest in the Westermiddel Rough offshore windfarm in the UK North Sea from DoEn GmbH & Co. KG
- Macquarie Capital on the disposal of 50% of its stake in the 172MW Gurubebila Shields offshore windfarm in the UK (to Bank of Japan Inc.)
- Royal Bank of Scotland PLC and Investec Bank PLC as mandated lead arrangers and underwriters on the £400m financing to Octopus Investments for a portfolio of 24 UK ground mounted solar projects
- the lenders in connection with the financing of the 236MW Tesei Biomass Power (“CTF”)
- the sponsors on the financing of the Cranlington CHP biomass project
- the sponsors on the proposed biomass conversion, and subsequent sale of, the Lynemouth power plant
- Macquarie and Noron on the formation of the Novo Marquise landfill gas joint venture and on the leveraged acquisition of Novo’s and United Utilities’ landfill gas, hydrot and waste assets in the UK
- in relation to the proposed AIP financing of the Swansea Tidal Lagoon power stations, the world’s first large-scale tidal energy-generating lagoon
- Morgan Stanley on the sole venture investment in Megger’s tidal projects in the Portland Ferry
- Macquarie Bank Ltd on the acquisition and £128m financing of a substantial portfolio of UK renewables assets, including 32 wind farms in the UK
- the lenders on the financing of the acquisition of the first greenfield wind farm of HSH Nordbank in Italy
- on the acquisition and financing of a substantial portfolio of UK renewables assets, including over 50 landfill gas sites in the UK
- the borrower, collateral and sponsors on the €75mn restructuring of the hidden financing of their 50% interest in the Westermiddel Rough offshore wind farm
- Octopus Investments on the successful completion of a £74mn refinancing of the largest independent portfolio of biomass and landfill gas projects in the UK
- Melon Renewable Energy UK Ltd as borrower on the €174m refinancing of a biomass and landfill gas project portfolio
- RBS on the financing in respect of a 40 MW biomass project in Stafford, Lincolnshire
- Cory Environmental Holdings Ltd, as borrower on the £353m refinancing of the River Head EFW project

Belgium
- on the creation of a joint venture (‘D-TWIP’) for the construction and development of the 375MW Gemini offshore wind farm in the North Sea with a total capacity of 53MW
- on the financing of a biogasled site in Genthin, Belgium by Sygas for the construction and development of a 20MW biogasled plant from the waste of Aruza
- on the construction and development of the 25MW Landfill Gas Recovery Project in Zeebrugge
- Siemens Project Ventures on the committed £2bn+ investment in the construction and development of the 9GW offshore Gemini wind park in the Dutch North Sea
- the bidders on the construction arrangements for Tuesday’s auction of the Dudgeon offshore windfarm
- Novea S.A. on the €600m refinancing of the 24.3MW solar photovoltaic power portfolio located in Portugal, through two project bond issues
- HSH Nordbank on the financing of the first windfarm in Croatia

Netherlands
- Siemens Project Ventures on the contemplated £2bn+ investment in the construction and development of the 560MW offshore Gemini wind park in the Dutch North Sea
- the bidders on the construction arrangements for Tuesday’s auction of the Dudgeon offshore windfarm
- Novea S.A. on the €600m refinancing of the 24.3MW solar photovoltaic power portfolio located in Portugal, through two project bond issues
- the lenders in relation to the financing of the construction and development of the 156MW Project Tellenes onshore windfarm located in southern Norway

Norway
- the lenders in relation to the financing of the construction and development of the 560MW Project Tellenes onshore windfarm located in southern Norway

Belgium
- Enel Green Power
- Iberwind

Spain
- the sponsors on the development, non-renewable financing of WPC’s, 286MW wind farms portfolio in Southern Italy and Sardinia and subsequent financial leasing to 14 European LIFs
- the lead managers on the financing by way of securitisation of the Andromeda 52 MW PV plant, the first project bond in Italy
- the lenders on Project Zola, the 634MW project financing of EDF EN’s PV solar portfolio in Italy and France
- the lead managers on the €1.2bn financing, construction and operation of three separate Falck renewable energy plants and associated waste handling, collection and disposal facilities in Sicily
- Octopus Investment Ltd as borrower on the €250m Project Financing of one of the largest bio ethanol production plants in France
- the co-arrangers and dealers in the €560m Euro Medium Term Note Programme and the drawdowns of two series of Green Bonds of Albania, company which manages 34 hydroelectric power stations in Italy

France
- a consortium including ENGIE, GDF SUEZ, MERIDIAM and CDC on the financing and development of a floating offshore wind farm project on the west coast of France launched by the French Environment and Energy Management Agency (ADEME)
- ENGIE, ENGIE Renovables, GDF SUEZ and Chinese Partners and Eiffage on their “pilot floating wind farm” proposal to ADME
- The Bank of Tokyo-Mitsubishi UFJ Ltd, The Royal Bank of Canada, and BNP Paribas, as lead arrangers, on the €225m portfolio refinancing of windfarms in Ireland, UK and France
- a bidder in relation to the acquisition of Enel Green Energy’s French windfarm portfolio (178MW in operation, 18MW under construction and 319MW in development)
- Nexans S.A. on the completion of the 638MW development of Europe’s largest photovoltaic energy park in Casares, Castile, Spain
- the 2020 European Fund for Energy, Climate Change and Infrastructure (the Marguerite Fund) on its acquisition and project financing of three photovoltaic power plants from EDF Energies Nouvelles, in Toul-Rosières, France, one of Europe’s largest solar parks
- Terex (as main sponsor) on a €330m limited recourse refinancing of one of the largest bio-ethanol production plants in France
- an electricity operator on its bid to acquire Shen (Société hydrosolaire du Midi), SNCF’s 800MW hydro subsidiary in France
- Credit Industriel et Commercial S.A on the lead arranger and BNP Paribas and La Banque Postale as lenders on the limited recourse financing of a portfolio of 27 MW farms acquired by Engie in France
- Société Générale and Banque Financière d’Investissement as lenders on the €225m refinancing of a 86MW portfolio of 13 French solar and wind assets owned by the land Transfer Energétique France, managed by Accalia Energie Solare.
- Risen Solar as sponsor on the €275m refinancing and limited recourse refinancing of its portfolio of solar projects in operation in France, one of the largest solar assets refinancing to date in the French market

Italy
- the sponsors on the development, non-renewable financing of WPC’s, 286MW wind farms portfolio in Southern Italy and Sardinia and subsequent financial leasing to 14 European LIFs
- the lead managers on the financing by way of securitisation of the Andromeda 52 MW PV plant, the first project bond in Italy
- the lenders on Project Zola, the 634MW project financing of EDF EN’s PV solar portfolio in Italy and France
- the co-arrangers and dealers in the €560m Euro Medium Term Note Programme and the drawdowns of two series of Green Bonds of Albania, company which manages 34 hydroelectric power stations in Italy

Sweden
- GIG on the €273m project financing of a 235 MW onshore wind farm in central Sweden

Bulgaria
- the lenders on the construction of a €566MW windfarm in the municipality of Kavarna, in north-eastern Bulgaria

Turkey
- Verolu on the sale of its Turkish business to E.ON SE and the simultaneous acquisition of a number of hydro power plants

Poland
- Terra Energy Overseas Limited, a subsidiary of Green Group, Terra Energy, on the acquisition of three independent windfarms (total power of 35MW) in Poland

Hungary
- the joint venture company on the development of a greenfield biodeisel facility in Hungary

Romaia
- the European Bank for Reconstruction and Development (as a lender) on the financing of the development, construction, equipment supply and operation and maintenance of the wind farm in Tukaba, Romania
- Good Energies on the sale of all or part of two windfarm development projects in Romania (Ranawake)

Luxembourg
- the government of the Luxembourg Environment Ministry on its Milipal Lantik Gas Recovery Project
